Hi, I'm Giovanni De Conti,
graduated product and visual designer at IUAV University of Venice.
I have a deep passion for fashion that I had the chance to develop through
different personal and group projects, Arcadia Project, a small fashion brand of
mine that you can find through Instagram and Unposted90s, a YouTube channel
based on vintage, secondhand and creativity.
I live between Conegliano, near Treviso, Italy, and Delft, where I'm currently
studying, in the Netherlands.

My experience from the world of video production ranges from writing,
storytelling and making videos for marketing campaigns, YouTube products,
product videos and music videos.

Cameras:

- Fujifilm XT3
